

ACKNOWLEDGEMENTS

This thesis was successfully completed. I gratefully acknowledge supported by Suranaree University of Technology (SUT), Thailand Science Research and Innovation (TSRI), and the National Science, Research, and Innovation Fund (NSRF) (NRIS number 160344).

I want to express my heartfelt appreciation to my thesis adviser, Assoc. Prof. Dr. Pranee Chumsamrong, for her exceptional mentorship, guidance, benevolence, and unwavering support during my studies. I would like to publicly express my appreciation to Assoc. Prof. Dr. Jutarat Prachayawarakorn, Asst. Prof. Dr. Chantima Deeprasertkul, and Dr. Laksamon Raksaksri for their invaluable recommendations and assistance as committee members.

Furthermore, I would like to take this opportunity to express my appreciation to Wachirabhorn Pongputthipat, Wannaporn Thianthanathikun, staff of the School of Polymer Engineering, as well as the staff of the Suranaree University of Technology, for providing me with invaluable guidance and support in both academic matters and research operations throughout the entirety of this study.

Finally, I would like to take this opportunity to express my gratitude to my friends and the families of Rong-or and Tanin for their encouragement and assistance with a variety of problems.

Chanatirat Rong-or
