

CURRICULUM VITAE

Name	Ms. Aissara Rasritat
Date of birth	July 22, 1992
Place of birth	7 Mahachaidumri Rd., Talad Sub-district, Mueang District, Mahasarakham Province, Thailand.
Education	
2015-2023	Doctor of Philosophy (Physics): Ph.D. (Physics) Suranaree University of Technology, Nakhon Ratchasima, Thailand.
2011-2014	Bachelor of Science (Physics): B.Sc. (Physics) Khon Kaen University, Khon Kaen, Thailand.
Grants and Fellowships	Science Achievement Scholarship of Thailand (SAST)

Publications

- Rasritat, A.**, Tapakidareekul, M., Saego, K., Meevasana, W., and Sangtawesin, S. (2024). Formation of oxygen protective layer on monolayer MoS₂ via low energy electron irradiation. *RSC Advances*, 14, 21999.
- Polin, S., Laohana, P., Kullapapinyokol, J., Jindata, W., Musikajaroen, S., **Rasritat, A.**, ... and Meevasana, W. (2024). Measurement of the coupling of magnetism with electricity or light irradiation in BiFeO₃ using the Kerr angle. *APL Materials*, 12, 051104.
- Laohana, P., Polin, S., Jindata, W., **Rasritat, A.**, Eknapakul, T., Leuasoongnoen, P., Pinitsoontorn, S., Janphuang, P., Saenrang, W., and Meevasana, W. (2022). Large increase in photoinduced conductivity of two-dimensional electron gas at SrTiO₃ surface with BiFeO₃ topping layer. *Applied Physics Letters*, 121, 241601.
- Jindata, W., Hantanasirisakul, K., Eknapakul, T., Denlinger, J. D., Sangphet, S., Chaiyachad, Jaisuk, C., **Rasritat, A.**, and Meevasana, W. (2021). Spectroscopic

signature of negative electronic compressibility from the Ti core level of titanium carbonitride MXene. *Applied Physics Reviews*, 8(2), 021401.
