

## ACKNOWLEDGEMENT

The completion of this thesis was made possible through the support and inspiration of several individuals all of whom have my gratitude.

Firstly, I would like to express my sincere gratitude to my thesis advisor, Prof. Dr. Montarop Yamabhai, for continuous supporting of my Ph.D study and related research, for her patience, motivation, and immense knowledge. I appreciate her contributions of time, ideas, and funding to make my Ph.D experience productive and stimulating.

I would like to express my gratitude to Asst. Prof. Dr. Panwong Kuntanawat who provided me with an opportunity to work at his lab. He guided me, giving a good help by sharing his expertise in the field.

I would like to thank all committees Prof. Dr. Dietmar Haltrich, Prof. Dr. Hui-Min David Wang, Assoc. Prof. Dr. Kaemwich Jantama, Asst. Prof. Dr. Rath Pichyangkura for their available time and patience to read my thesis.

I would like to thank One Research One Grant (OROG) scholarship for my study and research experience at Suranaree University of Technology.

I would like to thank MY lab members for supporting me in every hard time. I am grateful for their good help and friendship.

I would like to express my very profound gratitude and support to my parents, my lovely sister and brother, for providing me with unfailing support and continuous encouragement in my years of study. This accomplishment would not have been possible without them.

Finally, I would like to say thanks to all friends I made during my study in SUT, especially those Indonesian companions who have been and are still real good friends,

seniors and juniors. They have been there during the fun time, the hard time and every time. I am very grateful for them.
