

ACKNOWLEDGEMENTS

I would like to appreciate my thesis advisor Assoc. Prof. Dr. Ratchadaporn Oonsivilai, who guided me and helped me adjust my work, and my thesis co-advisor Dr. Atcharaporn Thaeomor, who gave suggestions. Also, thanks to Asst. Prof. Dr. Siwat Thaiudom, Asst. Prof. Dr. Kittipong Promyo, and Asst. Prof. Dr. Jirawan Oonmettaaree, who paid attention to my work.

Thank animals to complete the experiments. Also, thanks to the Laboratory Animal Center, F14 Facility, and F9 Facility at Suranaree University of Technology (SUT), the place where the experiments were conducted, and F3 Facility at SUT, the place provided supplement equipment.

Thanks to my advisor mates, facility personnels, and involved people who gave their time, and their power to make my experiments possible.

Thanks to my family who supported me till graduation.

Atcha Uawongwattana
