Job Search Preparation

Getting started

Instruction: *Please read each statement and decide whether the statement is **True** in most cases or **False** in most cases.*

(adapted from www.ecu.edu/e3careers/pdf/Questionnaire.pdf)

- T** 1. If there are several applicants for one position, the person with the best qualifications generally gets the job offer.
- T** 2. The Human Resource Office should be the first place to contact if you are looking for a job.
- T** 3. Most people today who have good jobs are college students.
- F** 4. Employment agencies can get anyone a good job.
- F** 5. Most companies rarely hire students with less than 2.5 on 4.00 scale on their grade point average.
- T** 6. Ten years after finishing school, your grade point average is of no interest.
- F** 7. Most people are able to get a job in a week or two. If it takes longer than a month, something is wrong with you.
- F** 8. If you don't access to a computer, it's acceptable for an application to be hand written.
- F** 9. It's important to include every job you ever held when writing a resume.
- F** 10. Newspaper and the Internet are the only two sources for job seekers.
- F** 11. Your personality is not important as your qualifications.
- F** 12. Salary is the most important factors to be considered when applying for a job.

F 13. Engineers get higher salaries than other professions.

T 14. It's acceptable to apply for many different positions at the same time.

F 15. Walking in is always better than applying through sending a mail.

What should I do to apply for a job?

nvttech.com

Instructions: *Here is the list of steps that we need to deal with when applying for a job. Rearrange the list in the correct order.*

8 **a.** Go for an interview on time with all documents that are required.

4 **b.** Send a letter of application accompanied with a resume to the company that you would like to apply for or walk in to the company.

2 **c.** Look for job advertisements in all sources or develop your network by telling everyone that you are looking for employment.

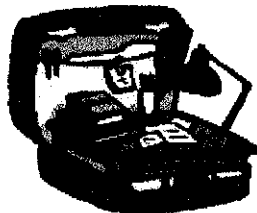

3 **d.** Create your resume and letter of application.

1 **e.** Have clear understanding of job that you are interested in.

6 **f.** While you are waiting for the contact, do some research about the company and job responsibilities.

7 **g.** When the appointment is scheduled, be prepared for an interview.

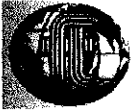

5 **h.** Keep an organized list of companies for further contact.

Reading II

Instruction: *Read the following information and search an appropriate job advertisement for each person.*

Sources: www.jobsdb.com, www.bangkokpost.net

"Hi, my name is Pakorn. I graduated a bachelor degree from SUT majoring in civil engineering. I am 26 years old. I have worked as a project engineer at Land and House Company in Korat for 3 years after I graduated. I just got married last month and I want to move to Bangkok"

"Hello, my name is Sirirat. I am only 22 years old. I graduated my bachelor degree in Information Technology. I don't have any working experience because I have just graduated from SUT last month. But I can write Java, C, and C++. Also, I have trained to use the Oracle on Windows. My English is also not bad because I was an exchange student in Australia for 6 months."

"Hi, my name is Nuttawut. I graduated my bachelor degree in Food Technology from SUT. I have worked in the department of quality control at the President Food Company for 4 months for my cooperative education. I don't mind working up country. But, I am afraid of working with foreigners because I am not good at English."

Getting the right job I

nvtech.com

Making a survey

Instruction: Imagine that you have already graduated your degree from SUT. Answer the following questions.

1. What's your name?

2. How old are you?

3. What do you specialize in?

4. Have you got any working experience? What is that and for how long?

5. What interests do you have outside studying?

6. How are your English and computer skills?

7. How would you describe yourself?

8. What type of job are you looking for?

9. What type of company would you like to work for?

10. What is your expected salary?

Getting the right job II

Instruction: *Search for job advertisements from any sources and collect at least 5 job advertisements that you most likely to do according to your qualifications written on page 11.*
