LIST OF TABLES	XII
LIST OF FIGURES	XIII
CHAPTER	
1. INTRODUCTION.....	1
1.1 Introduction	1
1.2 Research objectives.....	3
1.3 Research hypothesis	3
1.4 Scope on this study	4
1.5 Expected results	4
1.6 References.....	4
2. LITERATURE REVIEW	6
2.1. Bambara Groundnut.....	6
2.1.1 Nutrition	6
2.1.2 Physical and Functional properties.....	11
2.2 Starch	13
2.3 The nutritional classification of starch	15
2.3.1 Rapidly digestible starch (RDS) and Slowly digestible starch (SDS).....	15
2.3.2 Resistant starch (RS).....	15
2.4 Definition and classification of resistant starch	15
2.5 Amylose-lipid complex as resistant starch type 5.....	16
2.5.1 Types of V-amylose complexes.....	17
2.5.2 V-amylose complex preparation methods.....	17
2.6 Factors affecting starch digestibility.....	18

TABLE OF CONTENTS (Continued)

	Page
2.7 Rheology of starch.....	19
2.8 Modified Bambara groundnut starch	19
2.9 References.....	20
3. MATERIALS AND METHODS.....	24
3.1 Materials	24
3.2 Sample preparation.....	24
3.2.1 Flour preparation	24
3.2.2 Defatted flour preparation	24
3.2.3 Starch isolation	24
3.3 Chemical composition.....	25
3.3.1 Determination of amylose	25
3.3.2 Free fatty acid (FFA) analysis	25
3.4 Hydrolysis of triglyceride (TG).....	26
3.5 Effect of ethanol as a solvent on complex formation	26
3.5.1 Sample preparation in ethanol-water solution	26
3.5.2 Determination of complex index value (Kaur & Singh, 2000).....	26
3.5.3 Determination of crystalline structure.....	27
3.5.4 Determination of thermal properties.....	27
3.6 Modification of Bambara groundnut flour	27
3.6.1 Preparation of modified Bambara groundnut flour	27
3.6.2 Determination of complex index value	27
3.6.3 Determination of crystalline structure.....	27
3.6.4 Determination of thermal properties.....	28
3.6.5 Properties of modified Bambara groundnut flour	28
3.7 Statistical analysis.....	29
3.8 References.....	29
4. RESULTS AND DISCUSSION	31

TABLE OF CONTENTS (Continued)

	Page
4.1 Chemical composition of Bambara groundnut	31
4.2 Fatty acid profile of Bambara groundnut flour.....	32
4.3 Hydrolysis of Bambara Groundnut (BG) oil.....	34
4.4 Preliminary study on starch-lipids complex formation using ethanol.....	34
4.4.1 Complex index value	34
4.4.2 Crystalline structure.....	35
4.4.3 Thermal properties	39
4.5 Modified Bambara groundnut flour.....	39
4.5.1 Complex index value	39
4.5.2 Crystalline structure.....	42
4.5.3 Thermal properties	46
4.6 Properties of modified Bambara groundnut flour.....	47
4.6.1 Starch fractions.....	47
4.6.2 Dynamic Rheology	49
4.7 References.....	53
5. SUMMARY.....	56
APPENDIX.....	57
Determination of protein.....	57
Determination of moisture content	57
Determination of ash.....	58
Determination of fat	58
Determination of crude fiber	58
Determination of Total starch.....	58
BIOGRAPHY	59

LIST OF TABLES

Table	Page
2.1 Amino acid contents and amino acid score (AAS) of protein in Bambara groundnut.....	7
2.2 Fatty acid composition (%) of six varieties of Bambara groundnut seed oils ..	10
4.1 Chemical compositions of starch and flour from Bambara groundnut.....	32
4.2 Fatty acid composition of Bambara groundnut oils (% w/w).....	32
4.3 Hydrolyzed BG oils content on complex index value of Bambara groundnut flour and starch.....	40
4.4 Stearic acid content on complex index value of Bambara groundnut flour and starch.....	41
4.5 Thermal properties of complexed Bambara groundnut flour with different hydrolyzed oil concentrations.....	47
4.6 Thermal properties of complexed Bambara groundnut flour with different stearic acid concentrations	47
4.7 Starch fraction of modified Bambara groundnut flour.....	48
4.9 The strain sweep of BG flour complexed at 0% and 20% concentration of BG hydrolyzed oils.....	49

LIST OF FIGURES

Figures	Page
2.1 Scanning electron micrograph of starch granules from Bambara groundnut at magnification 2000X (Piyarat, 2008)	11
2.2 X-ray diffraction pattern of Bambara groundnut starch (Piyarat, 2008).....	12
2.3 Projection of starch granule (Bello Perez & Agama-Acevedo, 2017).....	14
2.4 Amylose lipid complex structure (Panyoo & Emmambux, 2017)	16
2.5 Concept of “vine-twinning” polymerization.	18
4.1 Enzymatic hydrolysis of BG oil.....	34
4.2 The complex index value of Bambara groundnut flour (A);Modified Bambara Groundnut flour was prepared in 25% ethanol (B);Modified Bambara Groundnut flour was prepared in 50% ethanol	36
4.3 The WAXS pattern of native Bambara groundnut flour.....	37
4.4 The WAXS pattern of complexed Bambara groundnut (A)starch and (B)flour with different hydrolyzed oils concentration (0, 2.5, 5, 7.5, 10, 12.5, 15 and 20%).....	38
4.5 Complex index value of amylose-lipid complex of Bambara groundnut flour and starch.....	42
4.6. The WAXS pattern of native Bambara groundnut flour and starch.....	43
4.7. The WAXS pattern of complexed Bambara groundnut (A);starch, (B);flour with different hydrolyzed oil concentration (0, 2.5, 5, 7.5, 10, 12.5, 15 and 20%)..	44
4.8. The percentage of crystallinity for the complexed sample	46
4.10 Effect of BG hydrolyzed oil on storage moduli (G') value of BG flour	51
4.11 Effect of BG hydrolyzed oil on loss moduli (G'') value of BG flour.....	51
4.12 Effect of BG hydrolyzed oil on loss tangent (tan δ) value of BG flour	52
