

ACKNOWLEDGEMENT

The author gratefully acknowledges the financial support provided by Suranaree University of Technology (SUT), which made this research possible. I am sincerely thankful to all the individuals who have supported and encouraged me throughout the course of my academic journey. Their contributions have been instrumental in the successful completion of this thesis.

First and foremost, I would like to express my deepest gratitude to my thesis advisor, Assoc. Prof. Dr. Phongchai Jittamai, for his unwavering support, valuable guidance, and continuous encouragement over the years. His mentorship has been a constant source of inspiration and has greatly contributed to both my academic and personal development.

I am also deeply appreciative of Asst. Prof. Dr. Jongkol Srithorn and Assoc. Prof. Dr. Wanyok Atisattapong, members of my thesis committee, for their insightful comments, constructive suggestions, and dedicated time in reviewing my work.

Special thanks are extended to friends in the School of Industrial Engineering, whose support and feedback have enriched my research experience.

Finally, I would like to express my heartfelt appreciation to my family for their unwavering love and moral support. Their encouragement has been the foundation of my perseverance and success.

Sovann Toek
