

ACKNOWLEDGEMENT

The successful completion of this thesis would not have been possible without the invaluable support and assistance of many individuals, to whom I extend my deepest gratitude for their unwavering commitment and encouragement.

I would like to express my gratitude to Assoc. Prof. Dr. Prayoon Songsiriritthigul for serving as my thesis adviser during my PhD study and research. I am deeply grateful for the unwavering support provided throughout my academic journey. I appreciate the insightful talks and the valuable knowledge shared, particularly in terms of guiding my research efforts towards presenting the research findings with the utmost clarity. I am deeply grateful and privileged to have the opportunity to work and study under your esteemed leadership. I express my appreciation to my co-advisor, Dr. Pinit Kidkhunthod, for continually providing me with possibilities for novel collaborations that have yielded exceptional achievements. Whenever I encountered a state of perplexity, he provided guidance in the form of a robust strategy aimed at identifying a single solution to address the situation at hand. I express my gratitude to Assoc. Prof. Dr. Panomsak Meemon, Assoc. Prof. Dr. Prapun Manyum and Dr. Wiwat Nuansing for their perceptive inquiries and constructive feedback on my thesis.

I would like to extend my sincere gratitude to the staff members of the Novel Glass Laboratory, including Dr. Jintara Padchasri, Sumeth Siriroj, and Mr. Amorntep, for their invaluable guidance and instruction throughout the manufacturing process of lithium borate (LiBO_3 or LBO) using the Melt-Quenching Technique. Their support and insights were instrumental during challenging moments, offering clarity and aiding in the exploration of effective solutions. Additionally, their assistance was greatly appreciated in the manuscript revision process.

I wish to extend my heartfelt gratitude to the entire faculty and staff of the School of Physics for their instrumental role in supporting my academic development. Their instructive lectures, comprehensive resources, and thoughtful discussions in seminars have significantly deepened my understanding of the subject.

I am equally grateful to my peers at the Institute of Science for their unwavering companionship and collaboration. Finally, I offer my deepest appreciation to my parents, whose constant support has been invaluable to both my personal and academic growth.
